Roll No:-62

ACKNOWLEDGEMENT

I would like to express my greatest appreciation to the all individuals who have helped and supported me throughout the project.

I am thankful to my internet programming mam (Ms. Nausheen Fatima) for her on going support during the project, from initial advice and encouragement which led to the final report of this project

```

Result page/Output:-

MAIN PAGE

The screenshot shows the main page of a web application. The header includes the logo 'NAVNEET & ASHVANI' and navigation links: HOME, ABOUT, SERVICE, Registration Form, and LOGOUT. A search bar is located in the top right corner. The main content area features a large welcome message and two coding practice questions. A sidebar on the right contains a login form with fields for email and password, a login button, and links for registration and social media.

You have successfully logout

Conclusion

India being the second largest growing economy with huge consumer class has resulted in online market as one of the biggest pathway for a successful start-up. Everything that was required with large efforts is coming at the fingertips. . the problem of going to different shops for buying different products of children is solved. Everything is available in one place. The size of the market will be high due to high demand for the children essentials and less competition in this field. If implemented and managed properly, it can be one of the leading child care selling E-commerce website in the world market. From this Project I have learnt the real time applications of HTML and CSS. This project has been a source to learn and bring our theoretical knowledge to the real-life world.
